

the ccomodation

Framed by deep green olive trees and dark lava rock, this beautiful 1800's villa is nestled in the heart of the Etna National Park. The Etna is the highest active volcano in Europe with its 10900 feet peak, and it will surprise you everyday with its breathtaking views, overlooking the beautiful sea and the romantic Gulf of Catania.

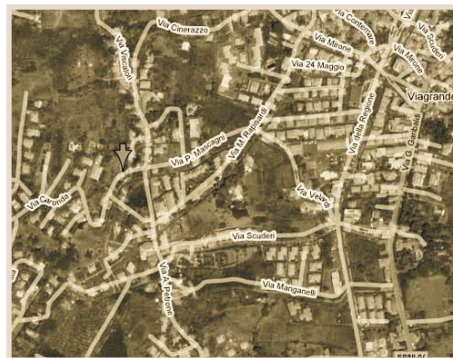

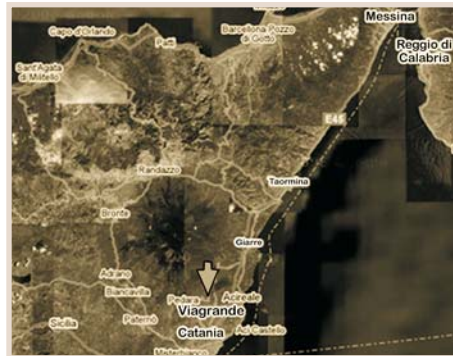

Our Villa has all comforts, featuring a swimming pool, a sauna and a solarium and it's decorated in style with original antique pieces.

The location is ideal because our villa is situated at only 10 minutes from Catania and the Cyclops Riviera and 30 minutes from Taormina and the Alcantara Gorges.

Indulge yourself and enjoy our rich breakfast featuring juices, fresh fruit, marmelades, croissants and the unique flavours of the local pastries...

...let us pamper you!
